Experience

UX Design & Content Strategy | Freelance | *Jan 2026 – present*

- Led freelance content design and UX writing for digital product workflows, improving information architecture and microcopy to reduce user friction and clarify key actions.

Content Designer / UX Designer | Know Your Pet DNA by Ancestry | *Mar 2025 - Jan 2026*

- Simplified a fragmented multi-user experience by redesigning account settings and a role-based permissions model.
- Reduced content complexity through a system-wide audit, taxonomy redesign, and information architecture overhaul across account settings, DNA traits results pages.
- Improved accessibility and interaction consistency across core consumer interfaces by removing design and content friction, resulting in a more usable account and dashboard experience.
- Supported a cross-enterprise migration to Hygraph, preserving content continuity and data integrity during the platform transition for product and editorial content.
- Standardized brand voice and microcopy, creating a more consistent product narrative and reducing inconsistency across user-facing surfaces.

Content Strategy Manager | Independence Pet Group | *Jun 2023 - Apr 2025*

- Captured 80% of total organic traffic and improved conversion rates by 92% YoY by managing a scaled end-to-end product content ecosystem.
- Drove 4x growth in organic sales within 6 months by partnering on UX/UI optimizations that converted high-intent traffic into revenue.
- Earned #1 and #2 rankings for competitive high-intent keywords for ASPCA Pet Health Insurance.
- Increased conversational search visibility by optimizing information architecture and content strategy for AI overviews across multiple pet insurance brands.
- Modernized site architecture and delivery workflows by aligning design, development, and product content teams in a shared services model, improving quote conversions.

Digital Copywriter | Ollie | *Feb 2023 - Jun 2023*

- Improved landing page and homepage performance by supporting A/B testing and conversion-focused copy iterations.
- Wrote interface copy, lifecycle email content, and paid search creatives to support acquisition and engagement goals across product and marketing channels.

Editorial Content Writer | Pinterest | *Jun 2022 - Feb 2023*

- Managed content strategy, curation scheduling, and interface copy for Today's Inspiration and Shopping Spotlight surfaces, delivering approximately 1,500 editorial assets across discovery experiences.
- Drafted microcopy for product discovery pages, retention emails, and partner feature surfaces to improve clarity across the experience.

Certifications

- W3Schools Certified Accessibility Practitioner (Specialized in digital inclusion and A11Y compliance standards).
- Google UX Design Professional Certificate (End-to-end user-centered design, wireframing, and low/high-fidelity prototyping).
- HubSpot Academy: SEO I, SEO II, Content Marketing, and Inbound Marketing.

Selected Product Case Studies

(Full design documentation and interactive prototypes available at heydylan.xyz.)

- [Ancestry Roles & Permissions Feature](#): Engineered a scalable multi-user access sharing model. Translated complex backend privacy parameters into clear, intuitive invitation flows, explicit role-definition matrices, and context-aware error states.
- [Veterinary Intake & Service Architecture](#): Built a 5-category state-aware conversational intake prototype. Authored trauma-informed microcopy and structured conditional branching logic featuring clinical safety routing and fallback valves.
